Clickers (TurningPoint) for Students

1. Log into ReggieNet (https://reggienet.illinoisstate.edu/). Registration for clickers should only ever be done from inside ReggieNet and not anywhere else on the internet.

2. Go into a Course that will be using Clickers

3. Click on the TurningPoint link (“Clickers”) in the left-hand column inside your course, near the bottom in the same column where you click to get into the gradebook. Some browsers will prevent the pop-up window. Simply click the link that says “Press to re-launch page.”

4. If you have never used TurningPoint Cloud before, you should create a new account. You’ll only need to do this once. Once you create the account, you will sign in normally using your ISU ULID and password.

Note: TurningPoint accounts should only be registered using your Illinois State University email address (YOUR_ULID@illinoisstate.edu).

5. Check your email (or junk mail folder if it seems to be taking a long time) click the verification link in the email and fill out the form:

Once you fill out the form, you’ll need to complete the wizard. If you haven’t purchased a subscription or response card (clicker) yet, you can click Continue and add them later.
7. Click Get Started.

8. Add your Subscription number.

9. Add your Clicker ID (found on the back of your clicker: 6 letters/numbers from A – F and 0 – 9). You must do this even if you have used your clicker in the past, and should check that your clicker number matches at the start of every semester.

Once you’re done, you’ll end up on your account page. For each header (Subscription, Response Devices, and Learning Management System) there should be a green checkmark (see above). If you have a yellow exclamation point that means either you haven’t put that information in yet or there is something wrong with the information. Note that a green checkmark next to Response Devices does NOT necessarily mean the code is correct, just that you’ve entered something, which is why it’s important that you double check that information to make sure the code on the back of your clicker matches what is listed on this page.

You should now be ready to use your clickers in your class. Students should contact TechZone for hardware support issues with their clickers. All other questions should be directed to Turning Technologies at (866) 746-3015 or emailed to support@turningtechnologies.com.
